Dawn was present and came forward to explained to the zoning board what an Airbnb is and what her plans were for the property.

There was public opposition from via mail, Ron and Cindy Maier at 1500 20th Street West and there were people from the neighborhood that wanted to voice their concern as well, Zoning Officer Rawstern reported.

The board gave the public a chance to voice their opinion. First to come up was Kent Mauck, he lives at 1516 Kennedy Drive. He voiced his option and is against the idea of Airbnb in his neighborhood. His concern was that it may cause decrease value of the property and the increase traffic in the area.

Tom Singer left meeting at 4:43 pm.

Next was Barb Zerr they live at 1906 Kennedy Drive. Their home is south of the Konold's property. They stated their options and their already existing problems of having people staying there for short terms. They are against the idea as well.

Then Helen Mauck came to the front of the board to address her concerns on what was already happening at the Konold property on a weekly bases of people coming and going for last two years. Her concern with the

increase traffic and the families with young children playing back forth across the road, something was waiting bad to happen.

Darrel Bender lives at 1509 Kennedy Drive addressed the Board his concerns about the increase traffic during the fishing and hunting season. He feels that the safety for the neighborhood children is at risk and that this location is not a place for business it a place for families.

Bob Zerr explained that they built their home in this location because it was away for commercial areas and its quite. They live right next door to the Konold property and when the guess would show up late at night with vehicles and being loud and noisy. He is against the Airbnb next door to his house.

Steve Schneider live at 1816 Kennedy Drive talked to the board members that he would enjoy having Dawn and Kerry as neighbors or a long term renter in the home. The concern he feels the same as Zerr's do, that the security in him own house is not the same. Everyone knows everyone and the uncomforted of these people coming and going not know where there from. The Airbnb it's not met to be in the residential area.

Dawn came back up with her sister Deb on the phone and asked her to speak about the people that were staying at the property when she was renting it. Deb said that they were friends and family that would come out to fish and stay with her. The basement was rented out to a gentleman on monthly bases and he come and go a lot as well. There was conflicts between the Zerr's and her through the two years that she lived there.

Dawn continued to explain that there is other Airbnb in town and there's no issues with traffic and went in to more detail on the process for someone to rent an Airbnb. Then she said the only time the property would be used is when they need an over flow from the lodge that they have out by Glenham. Dawn feels that this would be good for the town economy and has no problem if she has to set rules with the guest, such as the way they are allow to get to the property, where they park or any other things that the neighbors like to see.

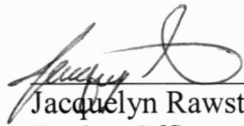

Kent come back to the front and explained that they are not against having Airbnb in town, they just feel that this is not the right location to have it.

Darrell Bender came back and address the board again. Stated that the city has laws and for something like this needs to be okayed by the board. The neighborhood he lives in just isn't the place for a commercial business.

Motion to deny the conditional use permit was made by Lil, second Ken and all in favor motion carried.

Public Hearing: The purpose of the hearing is to discuss the variance request submitted by Eric and Caitlin Roshau, located at Lot 13 and S 12 ½ of Lot 14 Block 18 Main Park to the City of Mobridge, 1010 1st Avenue West, for a request to build a 10'11"x 34 ½" deck with a 13' setback on the front footage.

The board opened the floor to the Roshau's to explain the reasoning of the variance request. They proposed that the size of the required front footage to be will decreased to the 13 feet. The house sits right at 25 feet back so there is no way they can build anything without having a variance.
