Who We Are

Our clinical staff specializes in delivering extraordinary individualized care including but not limited to depression, anxiety, trauma, behavioral challenges, parenting, marriage & relationships, childhood disorders, grief, and adjustment disorders.

How can we help?

INDIVIDUAL

Meet one-on-one in a safe and confidential space in person or by video conference. Counselors are also able to see children in some school environments.

COUPLES

Provides multiple sessions focusing on the dynamics of the relationship as well as exploration of how each individual impacts the family dynamic.

FAMILY

We offer support to multiple family members at one time to explore communication, interactions, and each family member's individual impact on the family system.

GROUP

Provides an opportunity to connect in a safe, confidential, and supportive space which allows for sharing experiences with others who can relate.
